

Reference Materials for Oncology Testing on the Cepheid GeneXpert[®] Systems

Ensure Reliable Cancer Diagnostics

Accurate detection and monitoring is crucial for early diagnosis, prognosis, and treatment of cancer patients. MMQCI's Xpert multiplex quality controls are uniquely designed to be carried through all phases of molecular testing on the Cepheid GeneXpert Systems.

DEPENDABLE

Third party independent controls tested over multiple lots, sites, operators, and instruments

SAFE

Does not contain any biological material of human or animal origin, universal precautions are not required when handling the products

PREVENTATIVE

Help to identify shifts, trends, and increased frequency of random errors caused by variations in the test system

READY TO USE

Convenient single use 4mL format to be used as provided, no dilution, reconstitution, or pooling needed

LONG SHELF LIFE

Can be stored between -25°C and -15°C for up to 36 months from date of manufacture

VERSATILE

Can be used for routine monitoring, validation, verification, proficiency assessment, range confirmation and training
